DATA SHEET

Synthetic Firearm Lubricant & Firearm Cleaner

Protection and Dependability for Generations

The moving parts on firearms (actions, bolts, hinges) must be cleaned and lubricated to ensure top performance and long life. AMSOIL Synthetic Firearm Lubricant and AMSOIL Firearm Cleaner present significant upgrades over all-in-one products, which sacrifice performance in the name of convenience.

Dependable Firearm Performance

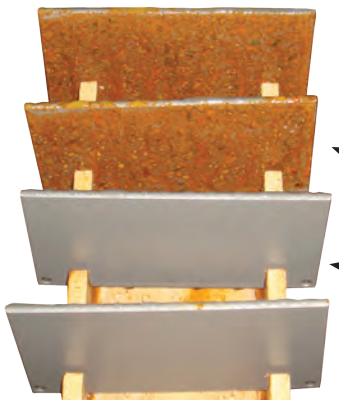

Hunters and recreational shooters need their guns to perform when called upon, sometimes after an extended period of storage, after sitting for hours in a wet duck blind or while on a remote hunting trip with few opportunities to clean their gun daily.

Since nothing will ruin a hunting trip or day at the range quicker than a malfunctioning firearm, AMSOIL firearm products were tested in a variety of firearms typically found at the range and in the field. The information gathered, along with extensive testing in the AMSOIL chemical lab, resulted in products dialed in for outstanding firearm protection in the most demanding conditions. As seen in the images, AMSOIL firearm products guard against damaging corrosion, helping keep firearms working properly for generations.

Applications

- Rifles
- Handguns
- Shotguns
- Black Powder Guns

Both products are safe to use on all metals, woods, composites and rubbers commonly found in firearms.

Salt Fog Test (ASTM B117)

Leading Competitor's Product

AMSOIL Synthetic Firearm Lubricant
(no corrosion)

Humidity Test (ASTM D1748)

AMSOIL Firearm Cleaner
(no corrosion)

Firearm Cleaner (FCPSC, FCPCN)

- Penetrates deep into hard-to-reach components.
- Effectively cleans fouling and powder residue from all firearm surfaces, reducing misfires and increasing reliability.
- Protects guns against corrosion, allowing for safe storage and preserving performance, reliability and value.

DIRECTIONS

- Ensure firearm is unloaded.
- Shake well prior to use.
- Apply AMSOIL Firearm Cleaner onto cleaning patch or area to be cleaned.
- Wipe with clean, lint-free cloth.
- Reapply and clean with brush as necessary.

If storing firearm, wipe with clean, lint-free cloth dampened with Firearm Cleaner.

Synthetic Firearm Lubricant (FLPBA, FLPSC)

- Effectively lubricates and protects firearms, helping extend life and prevent blockage, jams and wear.
- Outstanding protection and performance in both hot and cold climates.
- Specifically formulated for firearms, offering superior performance.

DIRECTIONS

- Ensure firearm is unloaded.
- Shake well prior to use.
- Clean firearm using AMSOIL Firearm Cleaner prior to lubricant application per manufacturer's recommendations.
- Apply evenly to all metal parts such as barrels, bolts, firing pins, springs and trigger mechanisms.
- Apply a thin layer to exterior surfaces of firearm.

Disposal

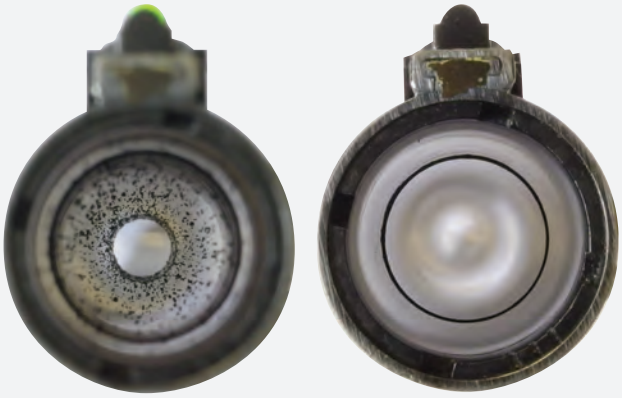

Aerosols may have different disposal requirements than other wastes in your area. Dispose of contents and container in accordance with all federal, state/provincial and local regulations.

PRODUCT AVAILABILITY

AMSOIL Synthetic Firearm Lubricant is available in 4-ounce bottles and 5-ounce spray cans. AMSOIL Firearm Cleaner is available in 8-ounce bottles and 5-ounce spray cans.

PRODUCT WARRANTY

AMSOIL products are backed by a Limited Liability Warranty. For complete information visit AMSOIL.com/warranty.aspx.

The picture on the left shows a shotgun barrel after firing 100 rounds. The picture on the right shows the same shotgun barrel after being cleaned with Firearm Cleaner. Firearm Cleaner effectively removed the powder residue, leaving a clean, smooth bore.

Synthetic Firearm Lubricant provided exceptional performance over rigorous range testing in multiple firearm applications.

AMSOIL products and Dealership information are available from your local full-service AMSOIL Dealer.
